

**“Heritage of the Ultimate Law of
Life and Death”**

Feb. 11, 1272 (Age 51)

All disciples and believers of Nichiren should chant Nam-Myoho-Renge-Kyo in *itai-doshin* (many in body, one in mind) without attachment to their own minds, to become as inseparable as fish and the water in which they swim. This is called the Heritage of the ultimate law of life and death. This is the object of Nichiren’s propagation. When you are so united, even the great aspiration for Kosen-rufu can be fulfilled without fail.
