This Gohonzon exists within faith alone, as expressed by the two characters, “belief” and “heart” (*shin-jin*). This is what is meant by “gaining entrance [to enlightenment] through faith alone” [in the Lotus Sutra]. The disciples and followers of Nichiren, without any doubt, wholeheartedly believe in “honestly discarding expedient means” and “not accepting a single verse of the other sutras.” Thus, they can enter the Treasure Tower of the Gohonzon. How encouraging, how heartening! By all means, exert your best efforts for the sake of your future lives. It is most important to chant only Nam-Myoho-Renge-Kyo and attain Buddhahood. This will depend on the strength of your faith. The essence of Buddhism is to have faith.
