If a person embraces this mandala with his life, Buddhas and gods will all surround and protect him like a shadow day and night, guarding him as warriors defend their king, as parents love their children, as fish depend on water, as grass and trees thirst for rain, and as birds rely on trees. This is the true Law. You should believe in it with all sincerity.

(Gosho p. 903 / Nichiren Shoshu Monthly September 2024)
